WHEEL SUPPORTS THE HOUSING FOR ALL COALITION:

We are at a crossroads in Seattle's history. As population and cost of living surge, and the supply of affordable housing dwindles, the Homelessness State of Emergency declared in 2015 continues to deepen. Thus far, the City's response to the homelessness crisis has failed to reckon with the affordable housing crisis that is at its root. We can do better. We certainly can't let shelter and survival service cuts to stand.
